About SPMVV

Sri Padmavati Mahila Visvavidyalayam (Women's university) was established in 1983 to face the social challenges of 21st century for the selfdevelopment and empowerment of women through access to education, particularly higher education in varied disciplines. The University is offering 59 courses at the post-graduate and undergraduate level with a good component of research. The mission of the university is to provide quality education to women students with global standards lying a strong foundation on Indian values and tradition based on current advances in science and technology and societal demands with emphasis on commitment to social progress, peace, harmony and national integration. The University is accredited by NAAC with "A" grade in 2016.

About the Conference

A Two Day National Conference is being organized by 'Sri Padmavati Mahila Visvavidyalayam, Tirupati in collaboration with NAAC-Bangalore. Higher education, research and innovation play a crucial role in supporting social cohesion, economic growth and global competitiveness. At the same time, an increasing demand for skills and competences requires higher education to respond in new ways. Broader access to higher education is an opportunity for higher education institutions to make use of increasingly diverse individual experiences. Responding to diversity and growing expectations for higher education requires a fundamental shift in its provision; it requires a more student-centered approach to learning and teaching, embracing flexible learning paths and recognizing competences gained outside formal curricula. Higher education institutions themselves become more diverse in their missions, mode of educational provision and cooperation, including growth of internationalization, digital learning and new forms of delivery. The role of quality assurance is crucial in supporting higher education systems and institutions in responding to these changes while ensuring the qualifications achieved by students and their experience of higher education remain at the forefront of institutional missions.

Objectives

- To act as a facilitator in enhancing quality in higher education through the sharing of ideas, research, and good practice.
- To be recognized as the leading independent network for quality assurance and quality enhancement in higher education.
- Endeavoring to foster trust beyond borders in higher education quality assurance and quality enhancement.
- Developing strategies and resources for next-generation quality assurance and quality enhancement in the age of technology.
