DASSAULT 3D EXPERIENCE LAB

Dassault Systems has launched the **3DExperience** Lab to support those innovators who also wish to change the world, or simply just make it a better place to live. We embrace the social enterprise and draw upon our long history of engineering in the virtual world to empower those with new perspectives on innovation.

The **3DExperience** Lab brings a new framework of openness, merging collective intelligence with a cross-collaborative approach to foster entrepreneurship and bring new experiences to life, as well as to strengthen society's future of creation. **3DExperience** platform has quickly brought to designers using solidworks to expand their business. The **3DExperience** WORKS family now includes DELMIAWORKS to serve mainstream manufacturers by providing a full digital thread for business operations.

Lab In-charge
P.Snehalatha
